

## Website purpose

### 1) Define the problem

Making a webpage that has links to my projects, navigation is the focus.

### 2) Brainstorm ideas

Two columns that are 8 wide. Column 1- coursework and links on the left aligned vertically. Column 2- about me, with hero image, programs I am proficient in, and a famous inspirational quote.

### 3) Look for inspiration

*I like the idea of doing buttons vs tiles, a clean list that changes colors when hovered over them.*

### 4) Gather assets

*Georgia fonts, Macomb logo, my personal logo, color scheme-style tiles. Red, pink, maroon, white, black.*

*Blue, purple, light purple, white*
